Quick Overview of Class 5 EVS Syllabus CBSE

The EVS Class 5 Syllabus provides interesting chapters and topics. Check out the description below for your learning in each unit.

CBSE Class 5 EVS Syllabus- Lessons Included in the CBSE Class 5 EVS Syllabus

The CBSE-enlisted syllabus for Class 5 Environmental Studies consists of 22 chapters in total. Each chapter has varied content, talking in detail about specific topics. Here are the names of the chapters in the CBSE syllabus for Class 5 EVS along with a small introduction:

- **Super Senses**

The first chapter is about the five senses of living beings. The five senses are touch, smell, sight, hearing, and taste. It discusses the different sensory organs and how they function. Later in this chapter, different threatened species have also been mentioned.

- **A Snake Charmer's Story**

Snakes have always been a very crucial part of India's mythology and cultural heritage. Snake charmers have also played an important role for centuries. In this chapter of the CBSE 5th class EVS syllabus, students get to know different creatures, especially snakes.

- **From Tasting to Digestion**

This chapter details the way food is processed in the human body. Starting from intake to digestion, the entire process has been explained.

- **Mangoes Round the Year**

Mangoes are also termed the king of fruits. This chapter in the Class 5 EVS syllabus tells how mangoes are grown, preserved, and prevented. Students get to know the different types of mangoes cultivated in India.

- **Seeds and Seeds**

We often talk about plants, trees, fruits, etc. But we forget their origin. In this chapter, students will understand how seeds are the origin of all trees, plants, fruits, etc. The contents of this lesson include parts of seed, germination, dispersion, and so on.

- **Every Drop Counts**

Water is one of the most necessary elements in our lives. Life could come to a standstill due to its absence. Here in this chapter of the CBSE Class 5 EVS syllabus, students read about the use, importance, availability, and management of water.

- **Experiments with Water**

This lesson helps you understand the basic concepts related to water. It teaches about what sinks, what floats, and what dissolves in water.

- **A Treat for Mosquitoes**

Chapter 8 in the Class 5 CBSE EVS syllabus discusses the different diseases caused due to mosquitoes. It teaches how such diseases are spread and how they can be prevented.

- **Up You Go!**

This chapter is about different mountains located in India. It includes an incident that took place in a camp arranged by the Nehru Institute of Mountaineering. It also tells what qualities a leader must possess to lead a group of campers.

- **Walls Tell Stories**

India has numerous forts, which are rich in history, culture, and heritage. Some of the famous Indian forts are Jaisalmer Fort, Agra Fort, Golconda Fort, etc. This chapter in the CBSE 5th EVS syllabus talks about the history of different forts and museums in India.

- **Sunita in Space**

Space contains stars, planets, the moon, and various other celestial bodies. This chapter details several topics related to space. Topics covered in this lesson of the CBSE syllabus for Class 5 EVS are moons and stars, the earth's shape, and space.

- **What if it Finishes...?**

The exhaustion of fossil fuels is a big concern today. This chapter discusses how imaginable life is without petrol and diesel.

- **A Shelter so High!**

Chapter 13 is about roadways, infrastructure, and road transport. Every day billions of individuals in the world avail road transport to travel or transport goods. This chapter shows how roads have also been constructed in high altitudes to make transportation simpler.

- **When the Earth Shook!**

As its name suggests, this chapter is about earthquakes. Earthquakes occur due to the energy released from the Lithosphere and the seismic waves caused through it. In this chapter of the Class 5 EVS CBSE syllabus, students get an overview of how destructive earthquakes can be.

- **Blow Hot, Blow Cold**

This lesson explains through experiments why the air we blow from our mouth is cold sometimes and hot sometimes.

- **Who will Do this Work?**

This chapter in the 5th Class EVS syllabus teaches the value of cleanliness. It explains how we all should do our part to keep the environment clean.

- **Across the Wall**

This chapter throws light on gender discrimination that exists in India. It discusses how the nation has struggled over the years to eliminate discrimination based on gender.

- **No Place for Us?**

Chapter 18 in the CBSE Class 5 EVS syllabus revolves around migration. It talks about why people have to move from one place to another and the various difficulties attached to it.

- **A Seed Tells a Farmer's Story**

Here, students learn how farmers work hard to produce crops, vegetables, cereals, fruits, etc.

- **Whose Forests?**

Topics like forest conservation, habitat, and the importance of forests have been discussed in Chapter 20.

- **Like Father, Like Daughter**

This chapter in the Class 5 EVS syllabus is all about inheritance. It discussed Mendel's Law of Inheritance as well.

- **On the Move Again**

The last chapter discussed why farmers feel the need to migrate out of distress. You can find these chapters on the Vedantu website and the app as well.
